

# *Awakening the Inner Sun*

## *The Fire of Will*

*The heat moves through me  
Calling me to flow along  
Its path of blazing light.*

*I call to the ashes that  
The Phoenix may rise up  
Within me to break free  
Of what has held me inert.*

*Wings beat furiously and  
Strain with expansion upwards  
Quickening the spark of flame.*

*Blinding light flashes  
And I move through  
The flaming center  
Of the sun.*

*My Soul awakening in  
The black iciness of  
Enlightened Will.*

***Will you step into those Fires of Awakening? Or, will you cower in Fear?***
