

Temple of the Moon: Part Four

Celestial Tides Days of Light, Dark and Balance Session Three

*In the space of the great between
The scales sway to and fro.*

*Each disc of container
Holds a piece of the vital
Whole though disparate
And unequal.*

*The energy flows and breath
Moves and manipulates the degree
Of precision and accuracy of
Intention's goal.*

*Unknown and counter-weight
Placed just so hoping for
Satisfactory equilibrium.*

*One must acquiesce to the
Other.*

One must deepen its presence.

*One must reach back to the
Resolute purpose of the other
For transmutation to abide.*

*In the space of the great between
The scales have offered their gift.*

*Light emerges from the darkness
Of Illuminated Death.*

*And darkness upholds the descent
Into Hermit's space of Divine
Resurrection.*

Days of Balance The Equinoxes

The Equinoxes

Simply put, an equinox occurs twice a year – spring and autumn – when the Sun crosses the plane of the Earth’s equator. Derived from a Latin term meaning “equal night”, an equinox is not actually an entire day, but happens at two specific moments each year when the centre of the Sun is observed directly above a certain location on the Earth’s equator. (Urban Ghosts Article)

Etymology.... equinox (n.)

...1350-1400; Middle English < Medieval Latin equinoxium, for Latinaequinoctium the time of equal days and nights (aequi- equi- + noct-(stem of nox) night + -ium -ium)

Solar Principles (reviewed)

Concepts of the Sun

- Holographic light contained within us that is the same as what began the generation of life and creation at the beginning of time

WE carry this same light within and through our work of spiritual awakening we bring into the manifest realm of our physical being the resonance required to interact with the spiritual cosmic sun.

“Vedic Literature portrays an ancient solar religion of Yoga and enlightenment , such as was once common throughout the entire world.The Sun is the symbol of the Higher Self-the Atman- or Purusha. This Vedic religion of light is a religion of consciousness, which is the supreme form of light.” (David Frowley, Founder of the American Institute of Vedic Studies)

Physical Fire and The Inner Flame
Destroys and Creates

**What is destroyed at the Winter Solstice is reborn at the Summer Solstice

The Illuminated Wheel and Astrological Correlates (Handout)

The Winter Solstice calls to the Victorious Arising of

Time to reflect on how we came into being and to renew the fires of creation that are our birthright as Children of the Sun!

Spring Equinox **The Vernal (Spring) Equinox**

Northern Hemisphere = the astrological sign of Aries – the fecundity of the Ram

Southern Hemisphere = the astrological sign of Libra – de-scaling the scales of balance

Key Concept is...

Balance and Emerging from the Darkness

- The Consciousness is Born into the vessel of form and it grows and develops in its own accord, independent of the physical
- The Goal is one of re-union – Matter and Spirit – emerging from the darkness of creation and reborn into the spiritual and physical Light of the Sun

The Burgeoning Light

The balance of the HERMIT having been transformed into the FOOL

The Eastern Gate

Align with the rising SUN

The association of birth and emergence/triumph from the Death

Resurrection at the Crossroads

Egyptian = Osiris

Thracian = Orpheus

Greek = Dionysus

The Summer Solstice flows into the bounty of ...

*The process of attaining enlightenment, now at its peak and the reverse of creation enacted
The Light of the fully Self-Realized individual*

The Autumnal (Fall) Equinox

*Northern Hemisphere = the astrological sign of Libra – scales of balance
Southern Hemisphere = the astrological sign of Aries – the (sacrificial) Ram*

Key Concept is...

Balance and Emerging from the Light

“... our consciousness descends from the Source into the darkness of matter ; it divides and leaves behind parts of itself in higher dimensions; just as the sun’s light and power diminishes after the Summer Solstice as it descends towards the darkness of autumn.” (Belsebuub: The Path of the Spiritual Sun)

Harvesting what has grown to fullness
And, retrieving the seeds that will produce new life

The Descent Into Darkness

.... the annual descent of the sun south into darkness is symbolic of the consciousness descending into the darkness of matter, of it coming into a body, into the darkness of the subconscious of the psyche to join the process of life. (Belsebuub: The Path of the Spiritual Sun)

The Great Pyramid of Egypt....

... at midnight on the Autumn Equinox during certain time periods , a star shines down the descending passage into the pit. At the same time, the star Alcyon (central star of the Pelidess) aligns with the meridian of the pyramid .

Similar alignments at:

The Sun Pyramid of the Mayans at Teotihuacan in Mexico where the entire face of the pyramid faces the setting autumnal equinox sun and is built on top of a cave

Ratapignata Pyramid in France- contains similar stairwell of descent into the subterranean chamber. Thought to have been built by the Knights Templar

The Western Gate

Align with the setting – not rising SUN

The association of death and the underworld in the West
